*"Where Quality and Value Prevail!"*

March 25, 2015

To Whom It May Concern:

Having just completed our very satisfactory transaction with AP Wireless on our cell tower, I would like to thank Joseph Nyamweya and Annie Margeson for making the transaction such a pleasant experience. There were many facets to be covered but they made it virtually painless, covering all the bases with me in Florida, the tower and my records in Michigan and they working out of California. Have not met either one but feel like they are close friends after so many pleasant phone calls and other communications. Looking forward to any future business with them.

Sincerely,

A handwritten signature in blue ink that reads "Carl". The signature is stylized and cursive.

Carl W. Wahmhoff
